

Citing Sources in BadgerLink Resources

Many BadgerLink resources have a citation tool, making it easy to cite sources you find and use in your research, homework, presentations, and written communications.

■ Within a BadgerLink resource, do a search on your research topic.

When you find an article you wish to cite, look for the citation icon in the article view's toolbar. Each icon looks a little different, so here is a listing by BadgerLink resource.

Britannica resources

EBSCO resources

EBSCO's Explora

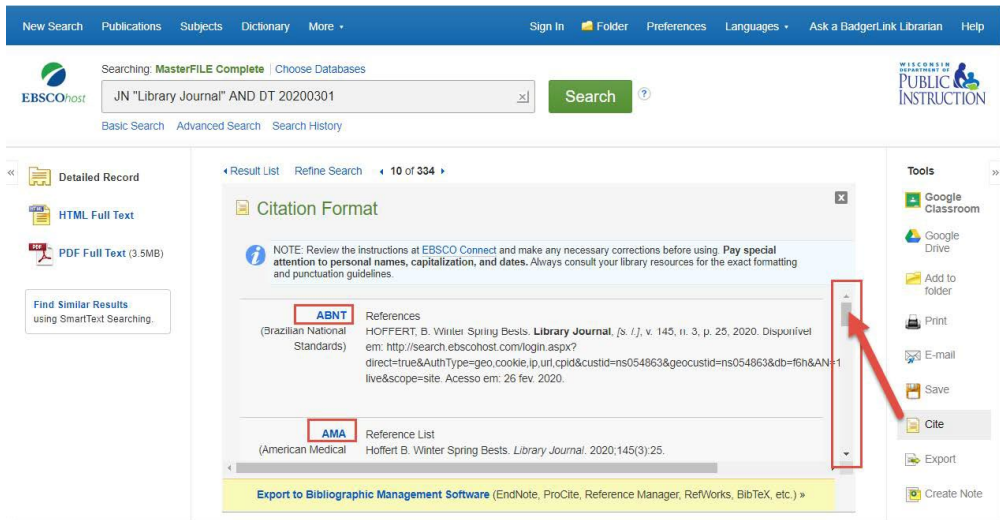

ProQuest's U.S. Newsstream

TeachingBooks

■ Some resources' cite tools have multiple options of citation styles to use.

■ Right click or ctrl C to copy and paste the citation to add to your reference list.
